1. **Introduction/Background** – In August 2010 spammers successfully lured a number of users into situations where logins and passwords were compromised. To combat this situation a system was acquired to mandate password change requirements and allow self-service to users for resetting their own passwords.
2. **Purpose** – Periodic changing of passwords improves system integrity and is a best practice approach for security.
3. **Applicable Regulations** – SACS Comprehensive Standard 3.9.2 – Confidentiality of Student Records
4. **Policy Statement** – Mandatory password changes will occur every 90 days. A password may be changed more often if it is thought to have been compromised. Passwords may be reused only after two prior changes. Passwords must meet the following minimum standards.
  - Be between 7 and 20 characters in length
  - Consist of at least 3 of the following 4 items
    - Uppercase letters
    - Lowercase letters
    - Numbers
    - Special characters i.e. !@#%&\*

5. **Details** – An annual financial audit of the College contains a technology component whereby this is verified each year. Non-compliance with this policy would be reported in the form of comments in the management letter of the audit.
