ACADEMIC RESOURCE CENTER

BSC is invested in seeing its students succeed. The Academic Resource Center, or ARC, provides support to the entire campus community with the goal of advancing student success.

Through ARC, students can access free specialized tutoring across the curriculum and learn to master the skills and habits required for academic excellence. At ARC, we:

- Use peer tutors and one-on-one-assistance to promote collaborative learning;
- Offer pre-professional opportunities and valuable work experience for students who act as tutors; and
- Strive to make services accessible to all types of learners.

CENTERS

The Writing Center is in Humanities Center 102 and is open from 4-8PM Sunday through Thursday. Questions can be sent and appointments made by emailing Melinda Thompson at mthomps@bsc.edu

The Math Lab is in Olin 103 and arrangements and questions can be directed to Catherine Cashio at ccashio@bsc.edu
